## 2009 Iris Offerings

Our 2009 Iris Germanica offerings listed below are hardy to Zone 2 (we are Zone 5) and do well in rich well-drained soil and full sun to partial shade. We also have some sibirica (Siberian) and additionally, we have pumila (Dwarf Bearded) iris that grow under similar conditions as Germanica but are only 10-15" tall depending upon variety in addition to Japanese Iris that grow well in acidic and moist to wet soil - ideal for around a pond. There is also Iris pallida with variegated green and white foliage for some nice contrast in the iris bed. New varieties for 2009 are identified by being underlined.

### TALL BEARDED GERMANICA:

- BATIK 30" Deep purple with splashes of white streaking. \$15

- SWINGTOWN 36-40" Lavender standard, falls & beards; fragrant \$12

I expect to pass through this world but once. Any good therefore that I can do, or any kindness that I can show to any fellow creature, let me do it now. Let me not defer or neglect it, for I shall not pass this way again.

..... William Penn
