2009 PEONY OFFERINGS

This year, we have expanded our peony offerings.

Few perennials provide greater satisfaction than peonies in full bloom. Peonies can be counted on for romantic single, semi-double or fully double blossoms in saturated reds and crimsons as well as soft white and pinks. Yet, peonies contribute more to the garden than pretty flowers in late spring. The substantial foliage of most herbaceous ones lends camouflage to decaying spring bulb foliage and bare-ankled perennials.

Plant in full sun and they start to bloom in the late spring. Peonies are hardy to Zone 3 and will increase with vigor each year. Where happy, peonies may live a century or longer!

All varieties: \$19.95 each !

- ALLEY CAT** 30-32" Large creamy white single flowers with raspberry tips

2009 ANNUALS

Annuals add instant color to your garden and are easy to grow. This year, we will be offering an expanded selection of different and hard to find annuals. We will have geraniums in unusual colors including the Regal geraniums that will provide a brilliant splash of color in your garden or as a container plant. Impatiens that go well in the shade and New Guinea Impatiens that will take some sun. Wave petunias, cannas, verbena, vendium (african daisy) scaevola and MORE!
