

*A SMALL SAMPLING  
of  
NEW PERENNIALS  
for 2018*

**ANEMONE 'Dainty Swan'**

A sister variety of 'Wild Swan', it has the same height and habit but with bright pink backs to its large white single flowers instead of blue. As with all Swans it blooms throughout the summer and looks particularly impressive in the evening or early morning when the blooms nod and show off their colorful backs.

**ATHYRIUM niponicum  
(Japanese Painted Fern)**

**'Pearly White' 1-2'H**

A beautiful selection with fronds of silvery-white and no red coloring. Imagine the possibilities in deep shade. With more sun, the fronds will show more green. **Zone 4**

**CLEMATIS tangutica  
'Golden Clematis'**

This adaptable species features small bright-yellow bell-shaped flowers that appear through the summer followed by the feathery tufted seedheads. It will climb up to 15 feet and is not fussy about soil conditions but prefers a sunny site.

**CLEMATIS (Bush type)  
'Violet Stardust'**

This broad-leaved hybrid clematis is a cross between two distinct species giving it a unique look and performance in the garden. The clump is covered with a profusion of small 1.5 inch blue-violet four to five-petaled star-shaped nodding flowers. The centers of the flowers have creamy-white anthers that contrast beautifully with the petals.

**DICENTRA (Bleeding Heart)  
'Fire Island' 15"H x 24"W**

Flaming magenta red, heart-shaped puffy flowers with white tips appears in clusters over ferny, frosty-blue foliage from late spring to midsummer.

**ECHINACEA (coneflower)  
'Green Twister'**

Upright petals display an inner ring of hot pink framed by an outer ring of lime green, making for a spectacular look as a garden specimen or cut flower.

**ECHINACEA  
'Harvest Moon'**

Heavily branched plants sport large golden blooms the color of a harvest moon with a large golden-orange cone. Plant this beautiful selection up close where you can enjoy its delightful rose-like fragrance. Coneflowers like it sunny and hot.

**EPIMEDIUM  
'Raspberry Rhapsody'**

Flowers are mauve-rose and are quite large and contrast nicely with the pale pink sepals. The foliage emerges mahogany-red, turning green in the summer.

**EUPATORIUM 'Pink Frost'**

Great foliage accent, this variegated Joe Pye Weed actually is more carefree than its fully green relatives. Has the same vertical form and pinkish flower but with a bright edging in cream and white. Good for sun to part shade and would be an attractive foliage interest in large pots.

**GENTIANA 'Royal Stripes'**

A real spectacle when it comes into bloom midsummer, this Gentiana produces masses of upturned bell-shaped flowers with speckled throats and alternating stripes of pure white and bright gentian blue. A hardy perennial with mass bloom and striped flowers dramatic as any petunia, this relatively low growing Gentiana is at its best in well-drained acidic soil.

**HEUCHERELLA  
'Pumpkin Spice'  
8-10"H x 16-20"W**

Bronze-red leaves emerge in late spring and hold their color well into early summer. Each lobed leaf has deep mahogany centers that follow the veins of the leaf. Dark red stems hold cream colored flowers.

**SANGUISORBA minor  
(Burnet) 'Little Angel' 1-2'H**

Petite green leaves with white edge form a tidy mound in the garden. In mid-summer, short flower stems produce small burgundy flowers held above the foliage like tiny drumsticks. Drought tolerant; early grower.

**SEDORO (stonecrop)  
'Blue Elf'**

Grows no more than an inch or two, this tiny denizen of the rock garden brings its steel-blue foliage and mass of fuchsia blooms to any sun-parched well-drained area.

**TIARELLA 'Pink Skyrocket'**

Dense spikes of pink flowers bloom above deeply cut green foliage with red veining. Leaves turn deep bronze to shiny black in fall.

**TRICYRTIS (Variegated  
Toad Lily) 'Samurai' 1-1.5'H**

Variegated foliage that has a thin gold edge to the leaf. Purple flowers with dark spots blooming from September to November.

**Golden Skep Flower Farm  
264 Linden Street  
Berlin, MA**
